

Greek Mythology Project

This project will be done in groups of 3 or 4. There will be three phases to this project. It will be important to split this project up among the group. For example the people that are more artistic should do more of the art work.

1. Poster – You will get to choose one of the Gods below and then tell a story about him by illustrating it on a poster. You must include color and pictures to explain this story. You can choose: Zeus, Aphrodite, Apollo, Athena, Hera, Poseidon, Hermes, Dionysus, Demeter, Ares, Artemis, Hercules, Cronus, and Uranus.
2. Companies – You need to research through magazines, phone books, etc. and pick out 3 companies that relate to mythology. They can either be the name or a logo of a company. After you find three companies you need to find out all you can about the company, why the company chose their name, or how they came to choose their logo. When you do your presentation you will discuss the relation this has to mythology.
3. Design your own creature – You will design your own mythological creature. They need to have 3 physical characteristics such as hair, head, body, hands, etc. Give the creature traits for example eats mice or can't go out in daylight. You also must illustrate a creature through poster board, mask, etc. Finally you must name the creature.

You will be given the appropriate time to finish each stage of this project. If anyone in the group is not doing their part then this needs to get reported to me immediately. You need to work together and equally distribute the work that is needed to finish this project on time. Below is how you will be graded.
